Dear Sir/Madam,

15 November 2011

I am writing on behalf of Gwyn Roberts Construction a'i Gwmni Cyf.

Gwyn Roberts Construction a'i Gwmni Cyf carried out drain blocking on two private farms for the LIFE Active blanket bog in Wales Project (LIFE06 NAT/UK/000134) during the winter of 2010/11. I personally managed contracts carried out by Gwyn Roberts Construction a'i Gwmni Cyf and worked with the company. All of this work took place on the European protected blanket bog habitat in the Berwyn & South Clwyd Mountains and the Migneint-Arenig-Dduallt Special Areas of Conservation and Sites for Special Scientific Interest.

The company carried out more than 40km of drain blocking on private farms. Their staff are very experienced in carrying out moorland and blanket bog restoration.

Gwyn Roberts Construction a'i Gwmni Cyf is fully aware of the need to protect blanket bog habitat and employ safe and environmentally friendly practices. For all contracts, they provided high quality method statements, risk assessments and evidence of experience and worked to a high standard. They are extremely professional and reliable.

I would highly recommend Gwyn Roberts Construction a'i Gwmni Cyf to carry out environmentally sensitive conservation restoration on moorland and blanket bog sites.

If you would like any further information please do not hesitate to contact me.

Yours faithfully

Mike Morris
